

User Acceptance Testing (UAT) Template

Date	12 July 2026
Project Name	CUSTOMER REGISTRY
Maximum Marks	

Project Overview:

Project Name: Customer Registry

Project Description: A MERN-stack customer complaint/support management system with role-based access for customers, agents, and admins — covering complaint submission, real-time chat, escalation, post-resolution feedback, and admin analytics.

Project Version: 1.0

Testing Period: 10 July 2026 to 12 July 2026

Testing Scope:

- User registration, login, and role-based authentication (customer, agent, admin)
- Complaint creation, assignment, status updates, and escalation
- Real-time chat between customer and agent, disabled after complaint closure
- Post-resolution feedback submission and visibility to agents/admins
- Agent view of a customer's past complaint history
- Customer profile management (view/edit phone and address)
- Admin feedback analytics dashboard
- Notifications on complaint status changes
- Route protection, role-based access restrictions, and CORS restriction

Testing Environment:

Testing Environment:

URL/Location: <https://customer-registry-indol.vercel.app>

Credentials:

- Admin: admin8689@gmail.com / admin8689
- Agent: agent@demo.com / Agent@123
- Customer: customer@demo.com / Customer@123

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Customer registration with valid details	1. Go to Register page 2. Enter full name, email, password 3. Submit form	Account is created and customer is logged in / redirected to dashboard	Account created successfully , redirected to dashboard	Pass
TC-002	Registration with an already-used email (negative)	1. Go to Register page 2. Enter an email that already exists 3. Submit form	Form is rejected with 'User already exists' error	Error message shown, account not created	Pass
TC-003	Login with valid customer credentials	1. Go to Login page 2. Enter registered email and password 3. Submit	User is authenticated and redirected to Dashboard	Logged in successfully	Pass
TC-004	Login with incorrect password (negative)	1. Go to Login page 2. Enter valid email with wrong password 3. Submit	Login is rejected with 'Invalid email or password' error	Error shown, access denied	Pass
TC-005	Admin login using configured admin credentials	1. Go to Login page 2. Enter ADMIN_EMAIL and ADMIN_PASSWORD 3. Submit	Admin account is auto-provisioned (first time) and logged in with admin role	Logged in as admin, admin nav links visible	Pass
TC-006	Unauthenticated user	1. Log out / clear	User is redirected	Redirected to Home	Pass

	visits a protected page directly	session 2. Navigate directly to /dashboard URL	to the Home page	page as expected	
TC-007	Customer raises a new complaint	1. Log in as customer 2. Open Dashboard, click 'New Complaint' 3. Fill title/description, submit	Complaint is created and appears in customer's complaint list with status 'Open'	Complaint created and visible with Open status	Pass
TC-008	Admin assigns an agent to a complaint	1. Log in as admin 2. Open a complaint with no agent 3. Select an agent, click Assign	Complaint is updated with the assigned agent and visible on the agent's dashboard	Agent assigned successfully	Pass
TC-009	Agent updates complaint status	1. Log in as agent 2. Open an assigned complaint 3. Change status to 'Resolved'	Status updates immediately and is reflected for customer and admin	Status updated to Resolved	Pass
TC-010	Agent escalates a complaint to admin	1. Log in as agent 2. Open an assigned complaint 3. Click Escalate, provide reason	Complaint is flagged as escalated and visible to admin with the reason	Escalation recorded and visible to admin	Pass
TC-0011	Real-time chat between customer and agent	1. Log in as customer, open a complaint 2. Send a message	Message appears in the chat thread for both customer	Message visible to both parties	Pass

		3. Log in as assigned agent, open same complaint	and agent		
TC-0012	Chat is disabled after complaint is closed (negative)	1. Open a complaint with status 'Closed' 2. Attempt to type/send a message	Message input is disabled and a 'Chat is disabled' notice is shown instead	Input disabled, notice displayed	Pass
TC-013	Customer submits feedback after resolution	1. Log in as customer 2. Open a Resolved/Closed complaint 3. Submit rating and comments	Feedback is saved and displayed on the complaint	Feedback submitted and displayed	Pass
TC-014	Agent/Adm in views customer feedback on a closed complaint	1. Log in as agent or admin 2. Open a Closed complaint with feedback	Feedback card shows the customer's rating and comment	Feedback visible as expected	Pass
TC-015	Agent views a customer's past complaint history	1. Log in as agent 2. Open a complaint from a returning customer	Profile updates are saved and reflected on reload	Profile updated successfully	Pass
TC-016	Customer updates their profile	1. Log in as customer 2. Open Profile page 3. Update phone/address, save	Profile updates are saved and reflected on reload	Profile updated successfully	Pass

TC-017	Role-based access restriction (negative)	1. Log in as customer 2. Attempt to navigate directly to /agents or /analytics	Access is denied / user is redirected away from the admin-only page	Redirected to Dashboard, access blocked	Pass
TC-018	Admin views Feedback Analytics dashboard	1. Log in as admin 2. Open Analytics page	Customer sees a new notification about the status change	Notification received	Pass
TC-019	Notification is created on complaint status change	1. Agent updates a complaint's status 2. Log in as the customer who owns it	Customer sees a new notification about the status change	Notification received	Pass
TC-020	CORS restriction blocks disallowed origins (negative)	1. Send an API request to the backend from an origin not in the allow-list	Request is rejected with a CORS error	Request blocked as expected	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	CORS was open to all origins, allowing any site to call the API	1. Send an API request from an arbitrary origin 2. Observe request succeeds	Medium	Closed	Restricted CORS to the deployed frontend origin only
BG-002	Chat input remained active on complaints with status 'Closed'	1. Open a Closed complaint 2. Type and send a message	Low	Closed	Chat input is now disabled with a notice once status is Closed
BG-003	Frontend API base URL was hardcoded to localhost, breaking production	1. Deploy frontend separately from backend 2. Attempt any API call	High	Closed	API URL now read from VITE_API_URL environment variable

Sign-off:

Tester Name: K. Sai Tarun

Date: 12 July 2026

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
