Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer who has raised a complaint/s support request	get my issue resolved quickly and know its status	I have to repeat my issue every time and get no status updates	there's no central system tracking my history and complaint status	frustrated, unheard, and unsure if anyone is helping me
PS-2	A support agent handling multiple customer complaints daily	resolve complaints efficiently and give consistent, accurate answers	I can't quickly see a customer's full profile or past interaction history	customer data is scattered across emails, spreadsheets, and notes with no central registry	overwhelmed and unable to deliver consistent, quality service
